MANTRA'S JOOMLA DEVELOPMENT SERVICES

Joomla, an open source content management system enhances the level of websites and web applications. Mantra Technologies offers this advanced version of Joomla for patron's expediency and flexibility to manage your website on its own. The flexibility deals with add-on modules, easily installed whenever it is required.

Joomla acts as the most user friendly administrative system which allows a patron to alter the content and layout whenever it is required. For any website management system based on Joomla, you need an acquaintance with a browser and application like Microsoft Office or Open Source Star Office.

Texcell HR

Platform – Joomla

are now one of the major recruitment and talent management consultancies in USA market, which provides flexible and creative solutions to an unpredictable skills market. We created one goal in mind: to successfully advance ambitious young professionals in their careers. We have a combined direct and tertiary access to several million candidates. Our clients range from national blue chip companies to start-ups.

emUser

Platform – Drupal

emuser is the next generation marketplace for job seekers, staffing companies, and clients of all sizes. By providing unique tools such as pay-per-resume contact and opportunities to recruit passive candidates emuser intends to change the process of membership recruiting. Pay as you go and more importantly you only have to pay if you like what you see; no hidden fees no commitments!

Horse Racing Fantasy

Platform – Drupal

Horse Racing Simulation LLC is now the largest publisher of horse racing games in the world, distributing horse and horse racing games through the Internet and thousands of retail stores across the United States. We develop a wide variety of products to appeal to a broad audience. From single-player to multi-player games, Horse Racing Simulation offers something for all levels of racing fans.

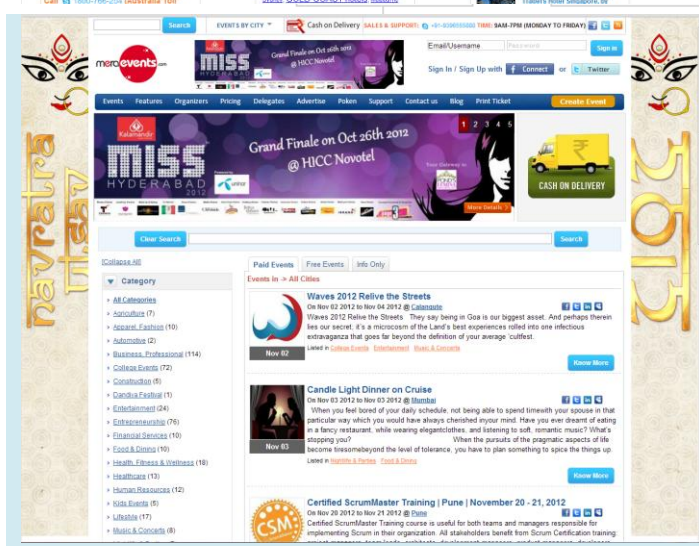

Brands Direct Platform – Joomla

We at BrandsDirect.com are delighted that you've decided to use our website as a resource for your appliance or electronics purchase. We've spent a lot of effort to make sure that you have as much information as you need to find the right product for your home and to match you with the right dealer for that product.

Texcell HR Platform – Joomla

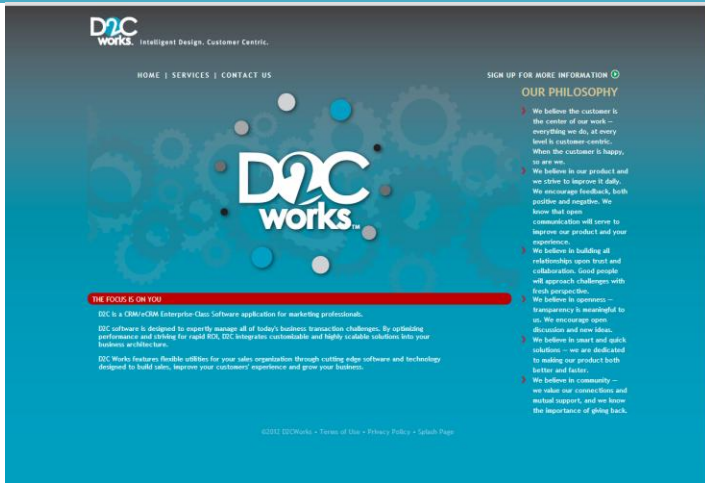

CheapAccommodation.com.au has over 80,000 hotels. WOW! I know right? The technology my techie Dad and his nerdy engineers built automatically generates the cheapest accommodation from our partnership with Expedia.com, the world's biggest online travel website. So, we can bring all my friends real time accommodation rates for hotels, motels, B&Bs and hostels.

Mera Events Platform – Joomla

MeraEvents.com, first Indian web based portal, dedicated to events, conferences, exhibitions & trade fairs, offering many unique features, would forever change the way events are organized.

We are one-point source for the events and trade fair industry, bringing related information at fingertips to the organizers, delegates, and service providers. Connecting one-another in a more professional, reliable, and effortless way.

D2C

Platform – Joomla

D2C is an Enterprise-Class Software application for marketing professionals. D2C software is designed to expertly manage all of today's business transaction challenges. By optimizing performance and striving for rapid ROI, D2C integrates customizable and highly scalable solutions into your business architecture.

PHR Staffing Solutions

Platform – Drupal

PHR is one of Florida's leading temporary staffing services. PHR has been providing staffing solutions to companies of all sizes through the greater Lakeland area for over 8 years. Whether you are a company looking for a professional staffing service, or a candidate looking for a job in *Lakeland* with a reputable company, contact PHR and find out why we are one of Florida's premiere *temporary and permanent staffing services*.

eStrongHold

Platform – Drupal

Welcome to the future of personal information management and protection. Your personal records and important documents are your most valuable assets in today's world. But protecting them from theft, natural disasters, or even from personal accidents can be problematic. We offer the most comprehensive solution to such a problem.
